

Immigration Attorney Milton Ontario

Immigration Attorney Milton Ontario - There is an increasing concern around numerous privacy matters these days and the complexity of new privacy legislation. The individuals working within the field, plus the organizations included in biotechnology and information technology have unique legal needs. So do people who rely on technology to be able to secure a competitive advantage for their business, or simply to be able to work in daily operations. Our Technology, Privacy and Intellectual Property lawyers assist clients in maximizing the use of intellectual property in their business operations. Our objective is to create value for our clients.

We provide a lot of services that deal with privacy technology, biotechnology, intellectual property on an international and domestic basis. The services which we provide to our clients include trade-marks, copyright, commercialization, privacy, domain names, e-commerce, information technology, intellectual property and operational matters.

Intellectual Property Assistance:

- Copyright
- Industrial Designs
- Licensing
- Trade Secrets
- Trade-marks

We help clients in obtaining, maintaining and enforcing intellectual property rights on an international, regional and national scale. Our clients come from different trades like for example entertainment, automotive, telecommunications and manufacturing.

Technology Services:

- e-commerce initiatives
- development, protection, distribution, licensing and sale of technology
- acquisition of technology

To both suppliers and users of technology, we advise various financial institutions and venture capitalists in structuring loan transactions. We can also help businesses with their confidentiality agreements, computer system and Internet usage policies, consulting agreements, outsourcing arrangements, employment agreements, source code escrow, joint ventures and strategic alliances.

Privacy Services:

We help organizations, employees, contractors and suppliers to ensure compliance with privacy legislation. We help organizations with their personal information management systems: drafting comprehensive privacy procedures and policies; advising with respect to the disclosure, use and collection of personal information. We assess Privacy Impact for clients' organizations or businesses.
